Hospital Bed Project

The Sri Lanka Canada Association with assistance from the Sri Lanka High Commission in Ottawa is urgently seeking your financial assistance to raise money to meet transportation costs in sending 200 electric beds to **Anuradhapura District Hospitals** in Sri Lanka.

The Cause:

A prominent long term care facility in Ottawa has offered to donate 200 electric beds for this worthy cause. These can be provided to needy Anuradhapura district hospitals in Sri Lanka. The transportation of these to Sri Lanka requires 2 full containers which **costs \$8000**. As the beds have to be taken over **on or before January 31st 2014**, we are looking to collect the required transportation cost to support this cause.

Why the urgency?

The donating facility is undergoing renovations and they require these beds be relocated within a week. Therefore we have to act ASAP and move these beds into transport containers to be shipped. We will organize a Food Fair to do a fund raiser, if needed in the near future. For now please respond.

How can you take part?

You can make your donations by cash or cheque. SLCAO President Roshan Fernando will do the collection on behalf of SLCAO.

For inquiries, contact:

Roshan Fernando president@slcaottawa.com 613-986-7686

All cheques to be made payable to Sri Lanka Canada Association of Ottawa
